Is it Quick?   Not bad...

This site was quick to connect and deliver initial code. It began rendering content very quickly. The largest contentful paint time was good.

4   4   Pro   7

Is it Usable?   Not bad...

This site had minor layout shifts.It took little time to become interactive. It had 3 accessibility issues, 2 critical. HTML content was mostly generated server-side.

2   2   Pro   2

Is it Resilient?   Looks great!

This site had zero render-blocking 3rd party requests. It had no security issues detected. HTML generation was not overly JavaScript-dependent
